No. Travel funds are limited and I will be making multiple trips in the future. Have fun.

Phil,
Thanks for the speedy reply. Are you going to be in Iliamna or
Dillingham next week for the BB Watershed Risk Assessment presentations?
If so, I'll see you there.
Tom

Hi Tom,
Your question about contractors was forwarded to me. We are contracting
with NatureServe. They are out of Virginia. They have an arrangement
with the Heritage Programs around the country for subcontracting. The
Alaska Natural Heritage Program, at UAA, decided to pass this
subcontract off to ENRI, also at UAA, because they have more fish and
stream ecology expertise. ENRI is also engaging anthropologists (Alan
Boraas and Katherine KNott) at the Kenai River Campus and Kachemak Bay
Campus, and maybe Gunnar Knapp at ISER. There are also a couple of
people outside of UAA who have particular expertise that are acting as
consultants. I believe they are Mike Wiedmer, a retired ADFG employee
who is currently studying non-salmon freshwater fish of Bristol Bay, and

Chris Frissell, who is an expert on the interaction of roads and streams. Chris works at the Pacific Rivers Council.

Let me know if you have any more questions.

Phil
